

WEEKLY REPORT

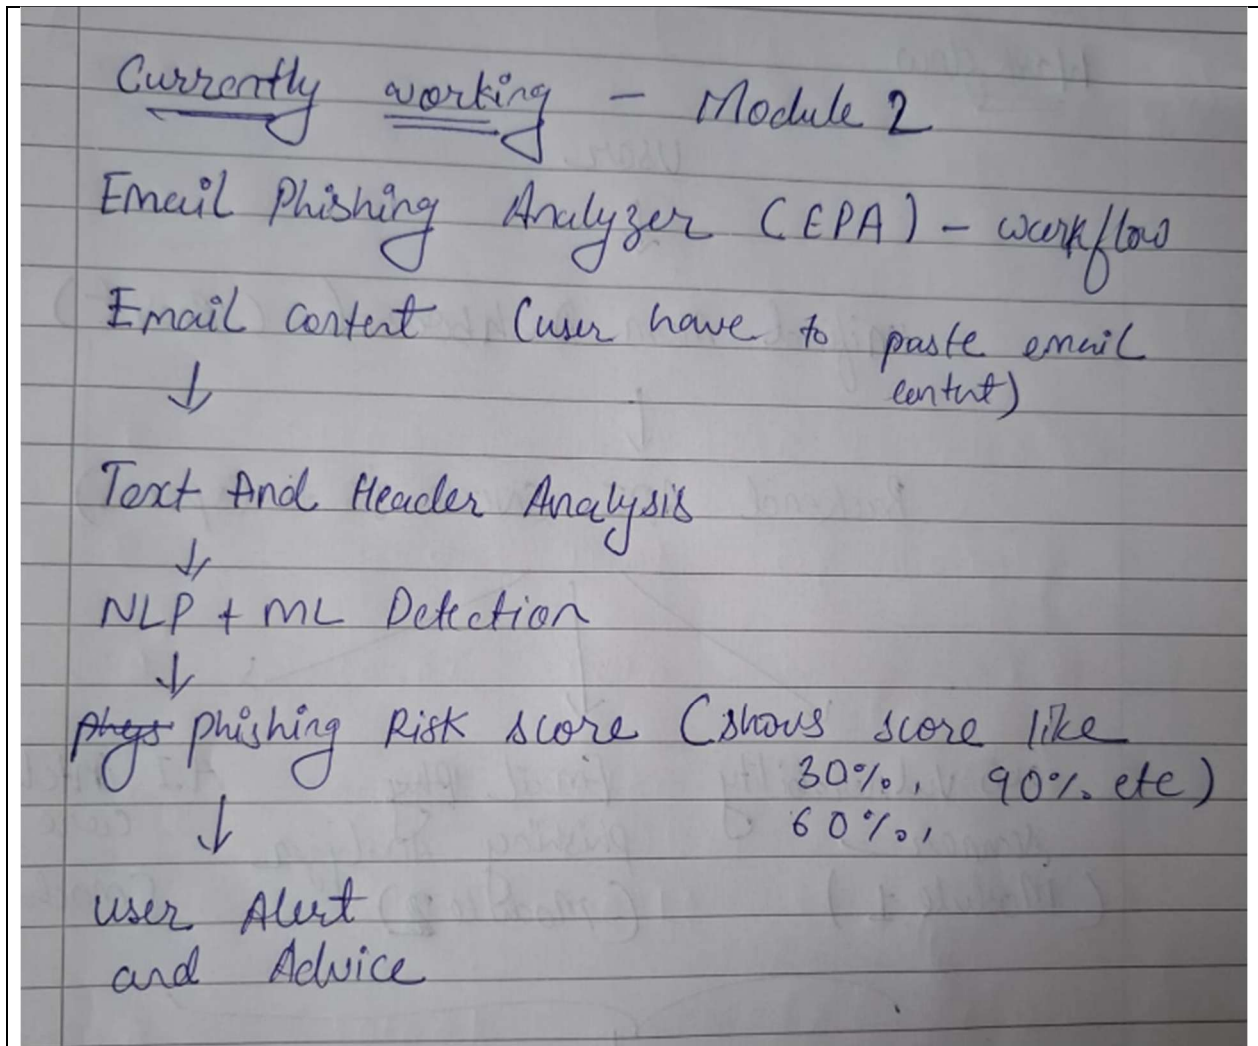

Project Title: SentinelX	
Student ID:24DIT060	Semester: 4
From Date:29/12/25	To Date:6/01/26

Work done in last week (Attach supporting Documents):

We have designed the workflow of our project **SentinelX**, explaining the step-by-step working of all modules and how the system functions from user input to final output.

And we have started working on module 2:
Its workflow diagram is shown below

We have started designing ui-ux for the same

Plans for next week:

we will soon start frontend and backend works..
